### THREE CASES ANNULLED.

SAN FRANCISCO, Aug. 9.—The State Supreme Court annulled three awards of the state industrial accident commission in a decision not affecting the constitutionality of the act. Two awards were on invalid evidence, not showing the injuries which caused death were received at work. The others were annulled on the court holding the action should have been brought under federal statutes.

## CARNEGIE LIBRARY APPEARS ASSURED FACT FOR WARREN

Letter From Carnegie Corporation Indicates Success of Commercial Club's Efforts; Warren Company Will Help.

Warren's chances for obtaining a Carnegie Library are bright. This is the situation as indicated in a letter received by the Commercial Club from James Bertram, secretary of the Carnegie Corporation of New York, yesterday. "What will you do for your selves?" is the only question propounded.

Recently the Commercial Club took up the matter of obtaining a Carnegie library for Warren and a letter asking for such a donation from the Carnegie Institution was duly dispatched. The letter from Mr. Bertram, the secretary of the institution, is the second step in progress made. There will be no delay in furnishing him the information he seeks. This will be the third move on the part of the Commercial Club.

Mr. Bertram acknowledges the receipt of the letter from the club and then proceeds to say that if there are not adequate library facilities for Warren, those interested should make application stating just what they are willing to do in providing a site and in making provisions for its proper maintenance.

It is understood that the Warren company has a highly desirable site for a public library, convenient in location, and such that a building erected on it would have unobstructed light, and that this site it will willingly provide. Its location, however, has never been announced but it will be fully described in a letter which will be sent to Mr. Bertram giving all the information which he states the Carnegie Institution desires.

## QUAINT COMEDY IS ORPHEUM OFFERING

The Payne Comedy Company, tonight, will repeat its Monday success of "The Toy Maker's Dream." The piece is one of the very best that has appeared on the local stage and is a mixture of quaint antiquity and modern comedy and song.

The piece features Billie House, the big comedian of the company. His laugh making comedy is fairly at its best in "The Toy Maker's Dream" and it is, without doubt, an offering that will please all.

### MAY SHARE FORTUNE

SAN FRANCISCO, Aug. 9.—A stay of distribution in the estate of the late John M. Keith, of about one-half million, was granted in the Superior Court to attorneys for Mrs. Louise Thompson of Los Angeles, who claimed Keith as her father. She declared the attorneys said, both were shipwrecked thirty years ago off the Alaskan coast and each believed the other dead. She learned of her father's rescue and fortune through the newspaper accounts of his death in San Francisco in April of this year.

### U. S. TO WORK ALONE.

WASHINGTON, Aug. 9.—The United States will continue to act alone in representations to Great Britain regarding neutral trade. It was learned tonight negotiations had begun at the Swedish legation here to secure the cooperation of neutrals brought no results. The negotiations are still in progress but have failed so far to develop common ground upon which any action could be based.

## REPRESENTS SOUTH ON SUFFRAGE BOARD

Mrs. Nellie Nugent Somerville.

The National American Woman Suffrage association announces that Mrs. Nellie Nugent Somerville of Mississippi has accepted the position of second vice president of the association and will be present at the next meeting of the board in New York. Mrs. Somerville comes as a representative of the "new south" and brings to the membership of the official board a long and close familiarity with the suffrage situation in that section of the country.

## PHOENIX AND TUCSON IN WRANGLE OVER BORDERLAND ROUTE

Claimed That Phoenix Is Luke-Warm Towards Borderland Route; Phoenix Resents Assertion; Declares "Taint So"

Tucson and Phoenix are engaged in one of those "stately" spats which, from time to time arise between them. On this occasion it is the Borderland Route and the alleged lukewarmness of Phoenix thereto that has brought about the "strained relations." The papers of the two cities have taken up the matter editorially and Phoenix vehemently insists "Taint so."

Recently an article appeared in the Phoenix Republican, that for the time being Phoenix had abandoned the idea of sending a representative to Springfield to route tourists through Globe to Phoenix, because the Springfield route was now impossible. This brought an editorial from the Tucson Star which commented upon the general lukewarmness of Phoenix toward the Borderland Route. Next day the Star printed an interview with J. C. Lester, "Father of the Borderland Route," in which he commented on the editorial and also upon the alleged sentiments of Phoenix.

Criticks have been taken up by the Phoenix Republican which replies that traffic diverted from Springfield to Phoenix could not otherwise reach the Borderland Route and by such diversion proceeds on over the westerly part of the Borderland. Further, the Republican says that four out of five Phoenixians favor the Borderland Route, and always recommend tourists to proceed eastward via Tucson, Bisbee and El Paso.

In this connection Secretary Welch of the Phoenix Board of Trade has written to the Warren District Commercial Club and to the Tucson Chamber of Commerce suggesting that they put an agent into Albuquerque to divert travel south to Lordsburg and so over the Borderland.

Advises received here and which are thoroughly reliable, are that in Phoenix west bound tourists are being routed over a "cut off" to Needles instead of via Yuma and the Borderland and that this cut off also ignores Prescott. Yuma people are in arms over the report and thus Phoenix and Yuma are falling out.

Whether or no the contention of the Republican that tourists are routed east over the Borderland by four out of five citizens is correct or no, Bisbee is in a position to determine. Those routed via Roosevelt Dam and Globe never reach here. But there can be no doubt that there has been a routing west of Phoenix via Needles rather than by way of Yuma from the testimony received here.

Phoenix is on the so-called "Ocean to Ocean Highway," as well as on the Borderland Route and on the north and south state highway that runs through Prescott and to the Grand Canyon. Neutrality is important for Phoenix to exercise but the capital city seems to have as much trouble over the question of neutrality as does the nation with the powers of Europe.

That there is more sentiment favoring the Borderland Route in Phoenix than was formerly, Bisbee is convinced, but that such sentiment is so strong as the Republican indicates is by no means certain, nor are people here satisfied that the Borderland Route and the cities along it are receiving absolutely fair play from garage owners, hotel men and others of the metropolis of the Rio del Sal.

handled by the State Department," McAdoo said. "I have not even been consulted regarding the possible financing. I would assume the time has not arrived for the discussion of such plans, although, of course, I know nothing officially of the matter."

The secretary added that, assuming the United States should establish a government in Mexico, he felt sure there would be no trouble in financing it. McAdoo conferred with P. G. Harding, of the Federal Reserve Board, and others at the sub-treasury.

## ARIZONA GUARDSMEN PITCH THEIR TENTS IN GARDEN CANYON

Summer Camp Is Established and Volunteers Will Be Haunted Such Duties as They Would Have in War.

GARDEN CANYON, Aug. 9.—Laying aside for the time their several occupations, six hundred members of the National Guard of Arizona are assembled for the annual encampment at Garden Canyon, where for two weeks they will study military efficiency in all its phases. The First Regiment band, Companies A, B, and F of Phoenix and Company I of Flagstaff left Phoenix on a special train Sunday at nine o'clock, and were joined at Tempe by Companies C and D from the south side. They arrived at Fort Huachuca late in the afternoon and at Garden Canyon in the evening.

Larger and better equipped than at any time in history, the companies from Phoenix, with the band, number close to 220 men. Company A, which took approximately 65 men to camp this year, is in better shape than ever before. Company B, in command of Captain H. G. Coykendall, numbers 50 men, while Company F, the Indian company, musters 65. Companies C of Tempe and D of Mesa, have been working hard and took a full quota to Garden Canyon. Company L of Yuma took between 65 and 70 men, while E and F companies of Tucson, M of Morenci and G of Douglas brought a large contingent. The equipment of the guard is also in excellent shape, it having been increased by the war department during the past year.

Drill work, trench digging, shrapnel, camp sanitation and a dozen other angles of military life will be included in the course at Garden Canyon. The men will have a busy two weeks and at the same time a fine outing. Captain Cromwell Stacey, inspector-instructor, N. G. A., and two other federal officers will attend the encampment and give the men plenty to do each day.

## GOETHALS WILL QUIT CANAL ZONE

(Continued from Page 1)  
pects to make as governor from Cristobal to New York. Goethals had expected, until a few hours before sailing, to leave Panama on a two months vacation during which he would visit the Panama-Pacific Exposition at San Francisco and return to Panama the latter part of September.

His plans were changed at the last minute by the receipt of instructions requiring him to appear in Washington. In obedience to the instructions Goethals expected to leave New York after a few hours stay here for Washington. His wife and son accompanied him on the trip.

It is expected Goethals' presence in Washington is desired so he may confer with authorities regarding the plans of national defense, especially with reference to the strength, disposition and housing of forces on the Canal Zone.

### SLIDE IN CANAL.

WASHINGTON, Aug. 9.—A half mile of earth which slid into the Panama Canal last week, reducing the depth through the Gallard cut to nineteen feet, will have been dredged away within the next three days, the canal officials reported. Ten steamers are awaiting passage through the cut. The slide has been slowly progressing for months but did not gain upon the dredges until Saturday.

## GOOD REPORTS FROM HAITI ARE HAD

(Continued from Page 1)  
people. Similar assurances are given by Bonraud, another presidential aspirant. When the election shall be held is not determined but the United States will require that a complete tranquility prevail before any step is taken. Lansing explained the occupation of Haiti's custom house. "The custom house is being supervised by American authorities," he said, "because a state of anarchy exists in the country. It is necessary we should see to it that the customs revenues do not go where they do not belong."

## SEEKS TO DEPRIVE SOCIETY WOMEN OF THEIR CIGARETTES

T. Gilbert Pearson.

T. Gilbert Pearson is the secretary of the National Association of Audubon Societies and he has just been in Washington to call the attention of the department of justice to the fact that plumes of the egret are being smuggled into New York from Florida and other southern points in defiance of the law.
